

For Immediate Release

October 4, 2024

**Cannon County Schools Safety Drill Week Oct. 14-18, 2024**

Cannon County Schools holds the safety of our students, faculty, and staff as a top priority. With this in mind, Safety Director Bill West would like to announce that the school system will hold a Safety Drill Week at each campus from October 14<sup>th</sup> through October 18<sup>th</sup>, 2024. As mandated by the state, the school district already holds drills of different types throughout the school year, which allows the students and staff to practice procedures for many situations. This particular awareness week is essential for practicing our procedures and reminds families to talk with their children about school safety and personal safety in general.

Mr. West stated, “Our school system can’t be successful without the support of parents, and we believe that this particular week is important for your children to see what this means to you. Also, be aware that if you arrive at your child’s campus, find the doors locked, and are informed of a drill in progress, please be patient with us and know the drill will not take very long.” For more information concerning school safety or School Safety Week, contact Bill West at [bill.west@ccstn.net](mailto:bill.west@ccstn.net).
